Dear Hiring Team,

I would like to express my interest in the Backend Javascript / Node.js Developer position at SocialHub, as advertised on your career page. While viewing your company website, I noticed that your company is the OMR market leader at 2023. I am particularly interested in working with you because of your customer first culture which aligns with me and also, I believe that work should be fun. With a passion for software development and a solid foundation in Computer Engineering, I am excited about the opportunity to contribute to your team and grow with the amazing people.

I am proficient in Javascript, TypeScript, Node.js, Express.js, Nestjs, Redis, MongoDB, and PostgreSQL. My experience includes internship at Fapshi Inc, I led the development of a dynamic admin dashboard using ReactJS, Axios, and the Context API and developed a blogging server with the use of Nodejs and mongoDB. Also work as contractor at Halcredit building a robust money lending system with Express and mongodb. My technical expertise is complemented by effective communication, adaptability, and critical thinking skills.

I believe I am prepared to handle the exciting challenges this position presents, and I hope you allow me to further discuss my qualifications with you in an interview. I have attached a copy of my resume to this application for your review.

Thank you for your time and consideration.

Regards,

Isong Leonard.
